TRANSIT

Scarborough is well connected to all parts of the GTA

Whether it's subway, GO transit, LRT or Viva, every neighbourhood in Scarborough is connected via a dense network of transit routes. No residence is more than a 5 minute walk from a transit stop. A new pedestrian connection, and eventually a new road under the CP Railway, will connect the new community to the neighbourhood and park to the north, while an internal network of roads, lanes and walkways will provide convenient access within the community.

THE FOUR PILLARS OF KINGDOM

REACH HIGHER

We set the highest standards for our company and our employees. We hire the best and we train them to achieve even higher goals year after year.

BE BETTER

Our goal is to be recognized as one of the top builders in the Canadian real estate development industry.

THINK DEEPER

The deeper needs of our customers are what drive our company. We aren't just here to build great condominiums, we're here to make their lives better too.

BUILD A BETTER WORLD

We are an international company with a commitment to sustainable construction and bringing a healthy lifestyle to every building and every community we are a part of.

THE KINGDOM PHILOSOPHY

For over 20 years, in Vancouver, now in Toronto and around the world, Kingdom has built an enviable reputation based on one simple premise. The deeper needs of our customers inspire everything that we do.

The people who choose Kingdom want more than a comfortable home to live in. That's why we create welcoming communities in neighbourhoods near parks, schools, entertainment and transit.

Our buyers believe in sustainability, so we incorporate Green practices into our building program and energy efficiency into our designs.

They want architecture that makes a statement, and our modern contemporary vision creates homes and communities that are both functional and stylish.

Value is key for our customers, so we've made it an essential part of our design, with thoughtful floor plans, better features and fine finishes.

But, at the heart of it all, each family is looking for the reassurance that they are making the right decision, that they are choosing the right developer. At Kingdom, we know that trust and integrity are the only foundation that a reputation can be built on. We are committed to bringing the highest degree of reliability and professionalism to every home, every condominium and every community we build.

We are Kingdom. Reaching higher, thinking deeper and building a better world.
